Dear Research Impact Fund (RIF) Secretariat,

On behalf of SenseTime Group Limited, I am writing to show our interests on Dr. Heming Cui's RIF proposal on "MindPipe: High-performance and Carbon-efficient Four-dimensional Parallel Training System for Large AI Models". We will be happy to support Dr. Cui's proposed project in two aspects: 1) organize technical experts from our research team to meet with Dr. Cui and his PhD students. In such meetings, we will be interested on the system design architecture, training performance, and carbon efficiency of MindPipe's research prototype compared to worldwide relevant training systems, as previously conducted. 2) provide the state-of-the-art big AI models for Dr. Cui's team to train and share the results.

Please feel free to reach us should you have any further enquiries and we are happy to see Dr. Cui's proposal got accepted by RIF.

Best,

Chris
