

Certificate of Project's Application

This is to certify that Huawei Technologies Co., Ltd. (hereinafter referred to as "Huawei") and the University of Hong Kong have conducted technical cooperation in the project of large AI model parallel training systems (Building high-performance pipelined parallel training systems for large AI models, contract number: TC20210623020), with the specific R&D work undertaken by Associate Professor Cui Heming's team. The relevant research results generated by the cooperation have provided innovative solutions for the Ascend computing cluster business. The relevant research results have been jointly published by both parties in high-level papers (including a journal paper in [Fold3D TPDS 2023]) and patents, which now have promoted the industrial commercialization and application of large-scale clusters with more than 3,000 Ascend cards, and have achieved significant performance acceleration for large AI model training.

This certificate is solely for Professor Cui's use in reporting on the academic and industrialization achievements of a China National Key Research and Development Program Project led by him, or in applying for Hong Kong Research Grant Council's grants/awards. It may not be used for any other purpose without Huawei's written consent, nor may its contents be disclosed to any third party unrelated to the aforementioned use. This certificate does not constitute confirmation of the acceptance and application standards of the project contract corresponding to this cooperation, nor does it constitute any interpretation of the obligations stipulated in the relevant contracts for the project corresponding to this cooperation.

This is to certify.
